EDUCATION

VIT Bhopal University

Computer Science and Engineering, CGPA: 8.72

Aug 2023 – Ongoing

Bhopal, India

St Mary's Inter College

Higher Secondary, Percentage: 80.2%

February 2021 – March 2022

Etawah, India

St Mary's Inter College

Senior Secondary, Percentage: 95.4%

February 2019 – March 2020

Etawah, India

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL, JavaScript

Frontend Development: HTML5, CSS3, React.js, Tailwind CSS

Backend Development: Node.js, Express.js, RESTful API Development, WebSockets, JSON Web Token (JWT) Authentication

Databases: MySQL, MongoDB, Amazon DynamoDB, Redis, Upstash

Cloud & DevOps: Amazon Web Services (AWS EC2), Render, Docker, Environment Variable Management, Deployment Automation

Platforms: GitHub, VS Code, Jupyter Notebook

Core Skills: Data Structures & Algorithms (DSA), Responsive Web Design, Performance Optimization, System Scalability, Data Modeling

RELEVANT EXPERIENCE

Cybersecurity Developer (Hackathon Project)

July 2025

Societe Generale Hackathon

- Collaborated with a team to automate network scanning and vulnerability detection.
- Created a full local pipeline using Python, Nmap, and LLaMA 3 for instant vulnerability assessment.
- Gained expertise in AI prompt writing, cyber tool integration, and system setup on Windows using VS Code.

Digital Evidence Collection and Cybercrime Investigation Techniques

April 2024

- Gained hands-on experience with cryptographic hashing algorithms (MD5 and SHA-256) for file integrity and evidence validation.
- Utilized Kali Linux forensic tools and Hash Identifier tool to analyse and verify digital data authenticity.

PROJECTS

Amazon E-commerce Clone | *HTML, CSS* | [LINK](#)

March 2025

- Developed a functional clone of the Amazon e-commerce website utilizing HTML and CSS for structure and styling.
- Implemented visually appealing UI elements and incorporated best practices in frontend design to enhance user experience across different devices.
- Demonstrated proficiency in semantic HTML and advanced CSS for layout, styling, and interactivity.

CineMatch | *Python, Jupyter Notebook, Flask* | [LINK](#)

April 2026

- Developed a Movie Recommendation System using Python and Jupyter Notebook, including data preprocessing, recommendation logic, and application integration.
- Built a deployable web application with Flask/Python app structure, using app.py, requirements.txt, and Procfile for execution and deployment.

- Processed movie dataset records to deliver relevant recommendations and collaborated on project development using GitHub

Smart Curriculum App | *Django, Python* | [LINK](#)

December 2025

- Developed a full-stack web application for educational institutions to manage student attendance and curriculum activities using Django framework.
- Implemented secure authentication system with role-based access control for students, teachers, and admins, featuring custom login interface with gradient UI design.
- Designed responsive frontend using Django templates system and established proper project-level template structure with TEMPLATES configuration for production deployment.
- Created modular architecture supporting multiple user dashboards (/student/, /teacher/, /admin/) and deployed production-ready application to GitHub with comprehensive setup documentation.

CERTIFICATES

Certified Data Science Professional, Oracle

September 2025

- Achieved recognition as an Oracle Certified Professional, demonstrating expertise in cloud infrastructure and data science tools, methods, and best practices. Certificate valid through September 2027.

AWS Certified AI Practitioner, Amazon Web Services

Mar 2025

- Earned the AWS Certified AI Practitioner certification, demonstrating understanding of AI/ML basics, generative AI, responsible AI practices, and AWS cloud-based AI services.

Digital Forensics Masterclass – DFMC, DFIR (Udemy)

July 2025

- Acquired hands-on skills in digital forensics and incident response, including memory analysis, evidence collection, and forensic tools.
